Continuation of 3. NOTE: The amendments made to claim 22, line 8, claim 32, line 2, and claim 35, line 5, would require further search and consideration.

Continuation of 5. Applicant's reply has overcome the following rejection(s): rejections of claims 25 and 27 under 35 U.S.C. 112, second paragraph.

Continuation of 13. Other: The examiner appreciates applicant's amendments to the claims and applicant remarks, and therefore, the drawing objections set forth in the Final Office Action are withdrawn. The examiner appreciates applicant's amendments to claims 27, 32, 35, and 37, and therefore, the claim objections set forth in the Final Office Action are withdrawn, however, applicant's amendments to claims 32 and 35 require further search and consideration. In regards to applicant's remarks concerning the rejection of claim 24 under 35 U.S.C. 112, second paragraph, the rejection is maintained, noting that the specification clearly shows that the recess 73 is located in a side wall of the frame and not in a portion of the door, with the claim being unclear in light of the specification. In regards to applicant's remarks concerning the rejection of claim 26 under 35 U.S.C. 112, second paragraph, the rejection is maintained, noting that the claim language requires clarification as to whether the means for selectively blocking is still located in the recess when in the second position, whether it be the end of the conical shape or not. In regards to applicant's remarks concerning the rejection of claim 31 under 35 U.S.C. 112, second paragraph, the rejection is maintained, noting that the species recited in claim 31 is specific to the species shown in Figures 10 and 11, and it is clear that this specifices utilizies a separate structure, as discussed in Paragraph 63 of the amended specification.
